Program Areas

We have multiple areas that are led by trained facilitators to assist all groups to meet their needs:

Low and High Ropes Courses and climbing wall provide opportunities for groups and individuals to stretch and push their boundaries to help with problem solving, teamwork, and build self-confidence

Water based activities include a 600' zip line, canoes and kayaks in the lake, hiking in the creek, and swimming in our Olympic size pool.

Wilderness Adventures is our outdoor education-based program. This program gives people the opportunity to experience our natural world in a deeper context. We offer experiential learning activities like high and low ropes, as well as more traditional environmental education activities like nature hikes, water studies, and tree ID. Looking for even more? We also can guide custom retreats in wilderness areas across the Southeast!
